I can heartily recommend Jennifer Jegger of Isidima Concierge Services. Jennifer is by far the most competent, conscientious, efficient, well-organized, accountable and productive Concierge. Jennifer's knowledge in her field is second nature and anyone that utilizes her services can be assured that she will perform the required tasks in an efficient manner without sacrificing the quality of her work.

She is a hard working self-starter who fully understands what is needed to get a project underway and completed timeously. My house was recently renovated, based on Jennifer's recommendations, including handling all sub-contractors, overseeing their work, making payments while ensuring good quality workmanship. This has resulted in a significant increase in the value of my house and a quick sale. She also came to my rescue when I decided to purchase an apartment and secured the purchase of my affordable yet strategically located beachfront apartment. It has been an absolute pleasure to work with her. Jennifer is focused, highly motivated in all the work she undertakes from the most monotonous (i.e. obtaining quotations and making the house available for the house for sub-contractors) to the most exciting tasks (like interior decorating of my new apartment. I found her energy contagious!

If you are overwhelmed and over-worked call Jennifer and she will discuss your business with you and make recommendations on how she can assist. Jennifer is a trustworthy, very hardworking individual who always puts forth 120% for her clients and the work required. She's extremely friendly and approachable. I would recommend Isidima Concierge Services to everyone who needs an excellent Concierge. Her attention to detail, her focussed, organizational ability and discipline to complete a task makes Isidima Concierge Services a valuable asset if you looking for a company with those special kinds of skills. Her integrity and work ethic, along with her dedication to me as her client makes her the perfect Concierge especially in situations when I could not be physically present, since I was working outside of Cape Town.

I highly recommend Isidima Concierge Services for any endeavor which requires Concierge services. Jennifer is a true gem!
